DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6, 11-17 and 19-34 are rejected under 35 U.S.C. 102(b) as being anticipated by Embree et al (6277164).

Embree et al discloses the claimed invention as recited in claims 1-6, 11-17 and 19-34. Embree et al disclose an appliance having a main body (125A) with surface treating head (111), a handle (45), rotatable members (90b and the other wheel), linkage (30), A central support assembly or shell (123b&232), fluid inlets and outlets (30), inlet and outlet ducts (240), a means of separating matter (80 or filter), and a motor (250)

Allowable Subject Matter

3. Claims 7-10 are allowed.

Response to Arguments

4. Applicant's arguments filed 9/17/08 have been fully considered but they are not persuasive.
5. Applicant states that the rejection is invalid.

Art Unit: 3727

a. The prior art discloses linkage between the handle and treatment head.

The new direction is a relative term that just means you start in one direction and then change to another. These limitations are narrative and open to mean many things as shown above. The function stated by the applicant are performed by the prior art. This is why the art still reads on the invention.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
